Objective:

Conscientious and dutiful graduate of the Computer Programmer Analyst program at George Brown excited to apply my problem solving and coding skills as a software developer. I am a highly organized individual enthusiastic to contribute to team projects and participate in building and testing complex solutions to difficult problems. I am excited at the chance to participate in the development process with the Bank of Montreal.

Qualification Highlights:

- Thorough knowledge of a dozen programming languages with experience documenting and organizing all iterations of the code.
- Designed code to vigorously test a variety of applications including access to customer databases and other business oriented purposes.
- Extensive experience performing in group projects in both developing and leading roles.
- Deep interest and some experience working with financial mathematics and the nature of the economic system.
- Over 3 years of experience programming in multiple languages and testing and debugging.
- A perpetual desire to maintain the highest level of organization in application code for both team and individual environments.

Education:

Computer Programmer Analyst   **Anticipated   2017-2019**
George Brown School of Computer Technology, Toronto, ON

- Graduated on the Dean's list with a 4.0 GPA.
- Studied and applied HTML, CSS, JavaScript, PHP, C#, Java, and SQL.
- Created programs with user interfaces joining front-end and back-end coding.
- Built a portfolio of independent code.

Engineering   **2010-2013**
Queens University, Kingston, ON

- Completed one year of general engineering, and did one year of mathematical and one year of computer engineering.
- Studied C, Java, and MAT Lab and used C to program a robot for an independent project.

Professional Experience:

Two Men and a Truck   **November 2014-Present**
Team Lead/Driver/Mover
- Acted at the forefront of customer communication while working to ensure they were happy with the level and efficiency of service they were receiving.
- Delegated tasks to ensure the smooth operation of the current job, while training new employees.
- Consistently and carefully performed difficult tasks, ensuring customer property was not damaged in many tough situations.
- Handled paperwork and customer payments, took customer info, explained our services and returned the paperwork to supervisors.
- Obtained extremely good customer ratings through their customer feedback system and received company recognition for my performance and attitude.

H2O   **May 2014-September 2014**
Head Lifeguard

- Managed the team of lifeguards in charge of guarding and maintaining the pool.
- Ensured the safety and enjoyment of our customers by watching the pool and providing extra services such as free swimming lessons during my break time.
- Maintained pool records for chemical levels, equipment supply, and cleanliness and ensured they were at an acceptable level.
- Reported regular information directly to supervisors to ensure our equipment levels and services continued to be excellent.

City of Ottawa   **September 2008-August 2013**
Lifeguard/Instructor/Attendant

- Planned and taught all levels of swimming lessons from ages 2-16 with consistently high performance reviews from parents and supervisors.
- Managed and trained volunteers how to effectively teach and watch the pool as training.
- Handled many public relations situations between parents of pupils and customers of the pool, ensuring they were satisfied with the service they were receiving.
- Attended regular team meetings and trainings and supported the success of the team as a whole.
- Greeted customers and handled entrance fee transactions and daily cash deposits.
